For the spring 2019 meeting, in addition to the “Young Investigators Symposium”, we will have a “Medical Physics Slam Competition” which will serve as the regional qualifier for the upcoming MedPhys Slam Competition at the AAPM national meeting in San Antonio, TX. Participants will offer three-minute, elevator-pitch-style presentations on their original research aimed at sharing the significance of their science in a compelling yet understandable manner. Presentations will be

judged by non-physicists, thereby emphasizing clarity and quality of a scientific presentation to a diverse audience. The winner of MedPhys Slam Competition will be awarded with a travel grant by AAPM Midwest Chapter to attend AAPM national meeting in San Antonio, TX.

This competition is open to all students and trainees. Additional information is attached to this email. Also please take a look at 2018 competition videos at:

As always, cash prizes will be awarded for the Young Investigators presentations.

If you would like to present a topic and/or join slam competition, please contact:
