# Break-Out Session

## Nursing Track
Facilitator: Gayle Somerstein, RN

- **10am** Radiation 101
  - Noreen Riordan, RN

- **10:30am** Nursing Implications for CNS/Brain Cancer Patients
  - Lauren Murawski, NP

- **11am** Topics in Brachytherapy Nursing Care
  - Venus Kam, NP

## Physics Track
Facilitator: Adam Riegel, PhD

- **10am** Commissioning and Safety of MR Linac
  - Neelam Tyagi, PhD

- **10:30am** Medical Image Segmentation in the Era of Deep Learning
  - Yading Yuan, PhD

- **11am** Update in Physics
  - Jenghwa Chang, PhD
Statement of Need: The management of malignancies continues to evolve, making it critical that providers be familiar with the most recent clinical and translational research in order to incorporate into their clinical practices. This course will provide participants with updates in the field of Oncology, and specifically Radiation Oncology that have occurred. This course will review for learners the most significant presentations made over the course of the year in scientific journals and national conferences with a focus on the following oncologic subsites: CNS, Gynecology, Head and Neck, Pediatrics, Thoracic, Gastrointestinal, Lymphoma, and Breast. Through lecture and panel discussion from disease site specialists, this course will engage attendees in the review of important updates, new technologies, and best practices in the fields of Radiation Oncology.

Program Objectives: All Northwell Health CME activities are intended to improve patient care, safety and outcomes. At the conclusion of this conference participants should be able to:

– Review highlights and important abstracts from 2019 national meeting.
– Summarize current and evolving treatment options for various malignancies including central nervous system, breast and gynecologic, head and neck, thoracic, genitourinary, gastrointestinal and hematologic.
– Identify various on-going oncology and radiation oncology clinical trials that are available to cancer patients and hypothesize about the impact on patient care and outcomes.
– Develop a team based best practice paradigm to avoid inconsistencies and variations in the evaluation, management, and treatment of patients.
– Incorporate best practice treatments of Radiation Oncology across all disciplines and settings.

Target Audience: MDs; PAs; NPs; RNs and those clinicians within the specialties of radiation oncology, medical oncology, surgical oncology, physics and dosimetry.

Credit Designation: Northwell Health designates this live educational activity for a maximum of 6.25 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

American Board of Radiology Credit: SAM Credit application in process with full qualification by the ABR expected before the SAM is taken.

American Society of Radiologic Technologists (ASRT): Category A/A+ CE credit is pending approval by the ASRT.

America Dosimetrist Crediting Board (MDCB): Credit pending.

Commission on Accreditation of Medical Physics Education Programs (CAMPEP): Credit pending.

Nursing Credit: The American Nurses Credentialing Center (ANCC) will accept 1.0 AMA PRA Category 1 Credit™ as equal to 1.0 ANCC contact hour. Nurses should inquire with their specialty organizations and professional institutions as to their acceptance of AMA PRA Category 1 Credits™.

Verification of Attendance: Will be provided to all professionals.
